

VASCO DA GAMA

Vasco da Gama

A CLASSICALLY
BEAUTIFUL VESSEL

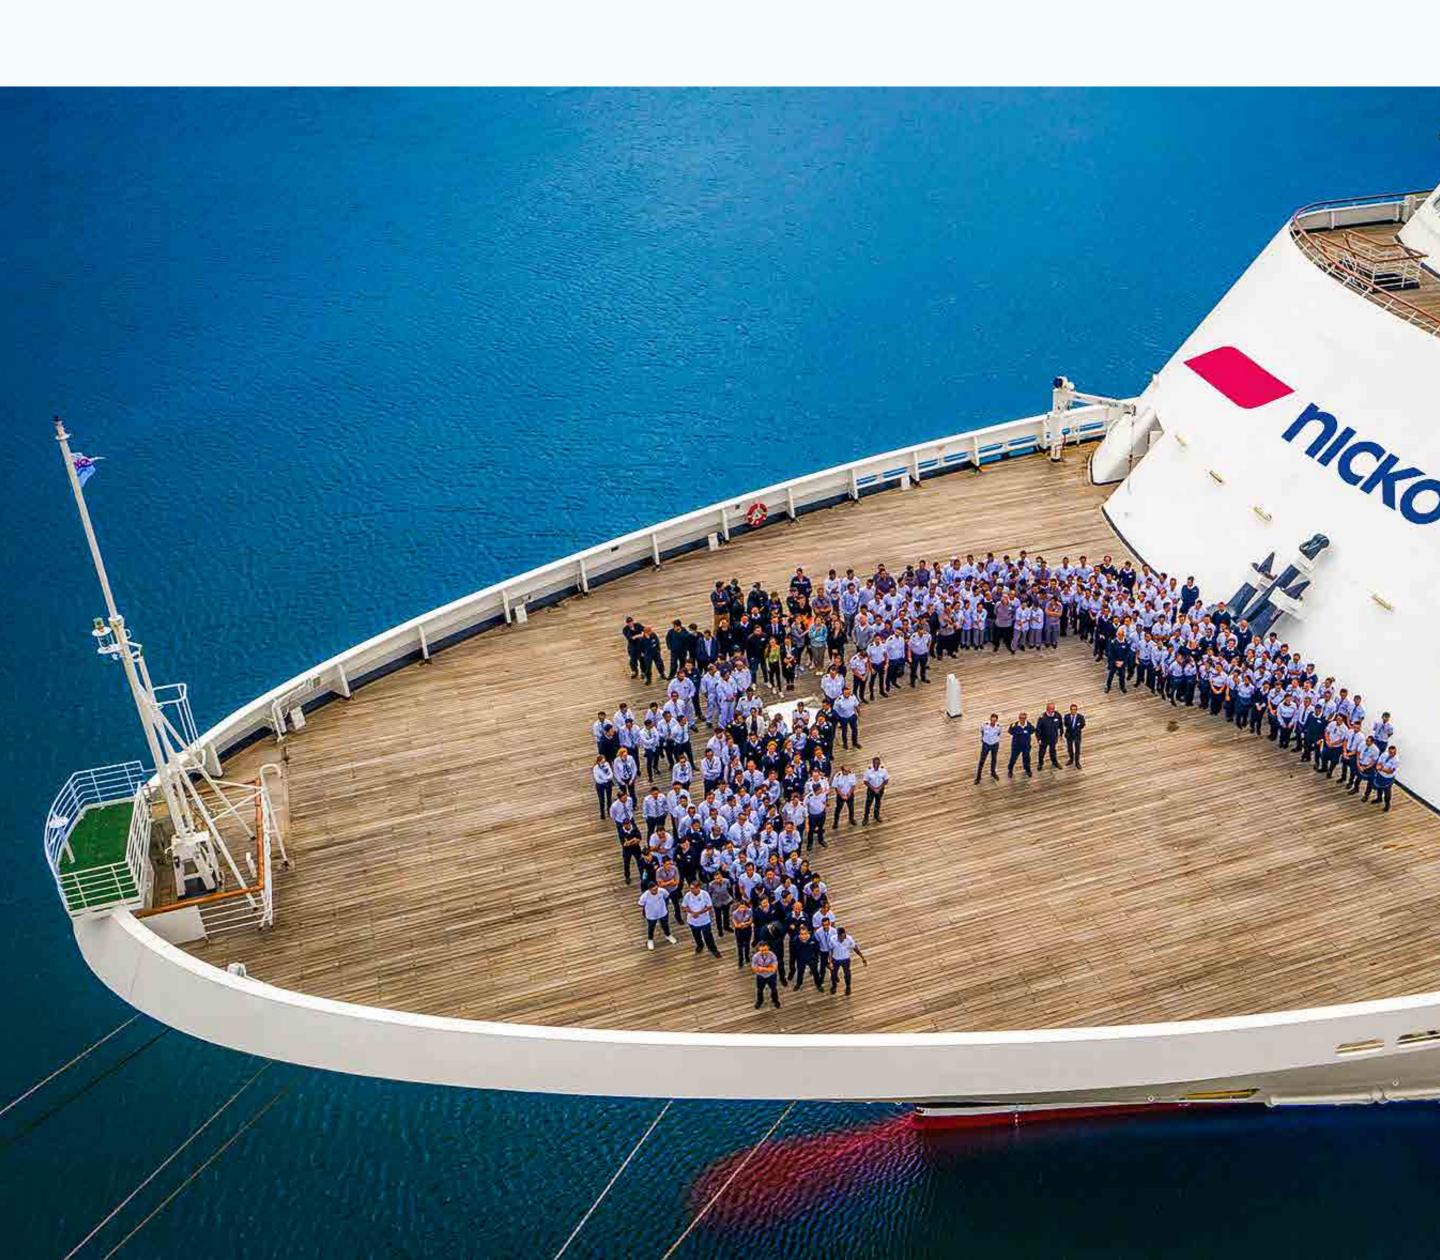

Mystic Ocean

ALL ABOUT US

Mystic Ocean, a distinctive ocean cruise company within the luxury travel and tourism industry, is dedicated to crafting unforgettable cruise experiences that blend timeless elegance with modern luxury.

As part of the renowned MysticInvest Holding, Mystic Ocean combines the innovation of a young company with the depth of experience from its parent group, which has spent decades pioneering in the travel sector.

The jewel of the Mystic Ocean fleet, the Vasco da Gama, offers an experience like no other.

Originally built for Holland America Line, this vessel now sails under the Portuguese flag, representing the proud heritage of Portugal as the largest liner in the nation. The vessel's classic silhouette and elegant lines reflect the sophistication of traditional ocean liners. while extensive modernizations have brought her up to the latest energy efficiency standards, allowing her to sail through Emission Control Areas and even the pristine polar regions. These upgrades ensure that Mystic Ocean is fully compliant with current and future environmental regulations, aligning sustainability with luxury travel.

Designed to deliver an immersive, comfortable journey, the Vasco da Gama accommodates up to 1,000 guests, making it spacious yet intimate. Each voyage is meticulously crafted to feature exclusive, off-the-beaten-path itineraries, visiting from picturesque beaches to UNESCO World Heritage sites. Supported by an experienced crew of around 550, the vessel maintains a 4-star level of service, allowing guests to explore the world with all the modern comforts and services they expect from a premium cruise line.

Embarking on a Mystic Ocean voyage means discovering a new world of luxury cruising, where relaxation, comfort and environmental responsibility converge to create journeys that are both indulgent and sustainable. Mystic Ocean's cruises aren't just about seeing the world; they're about experiencing it.

Exclusive team

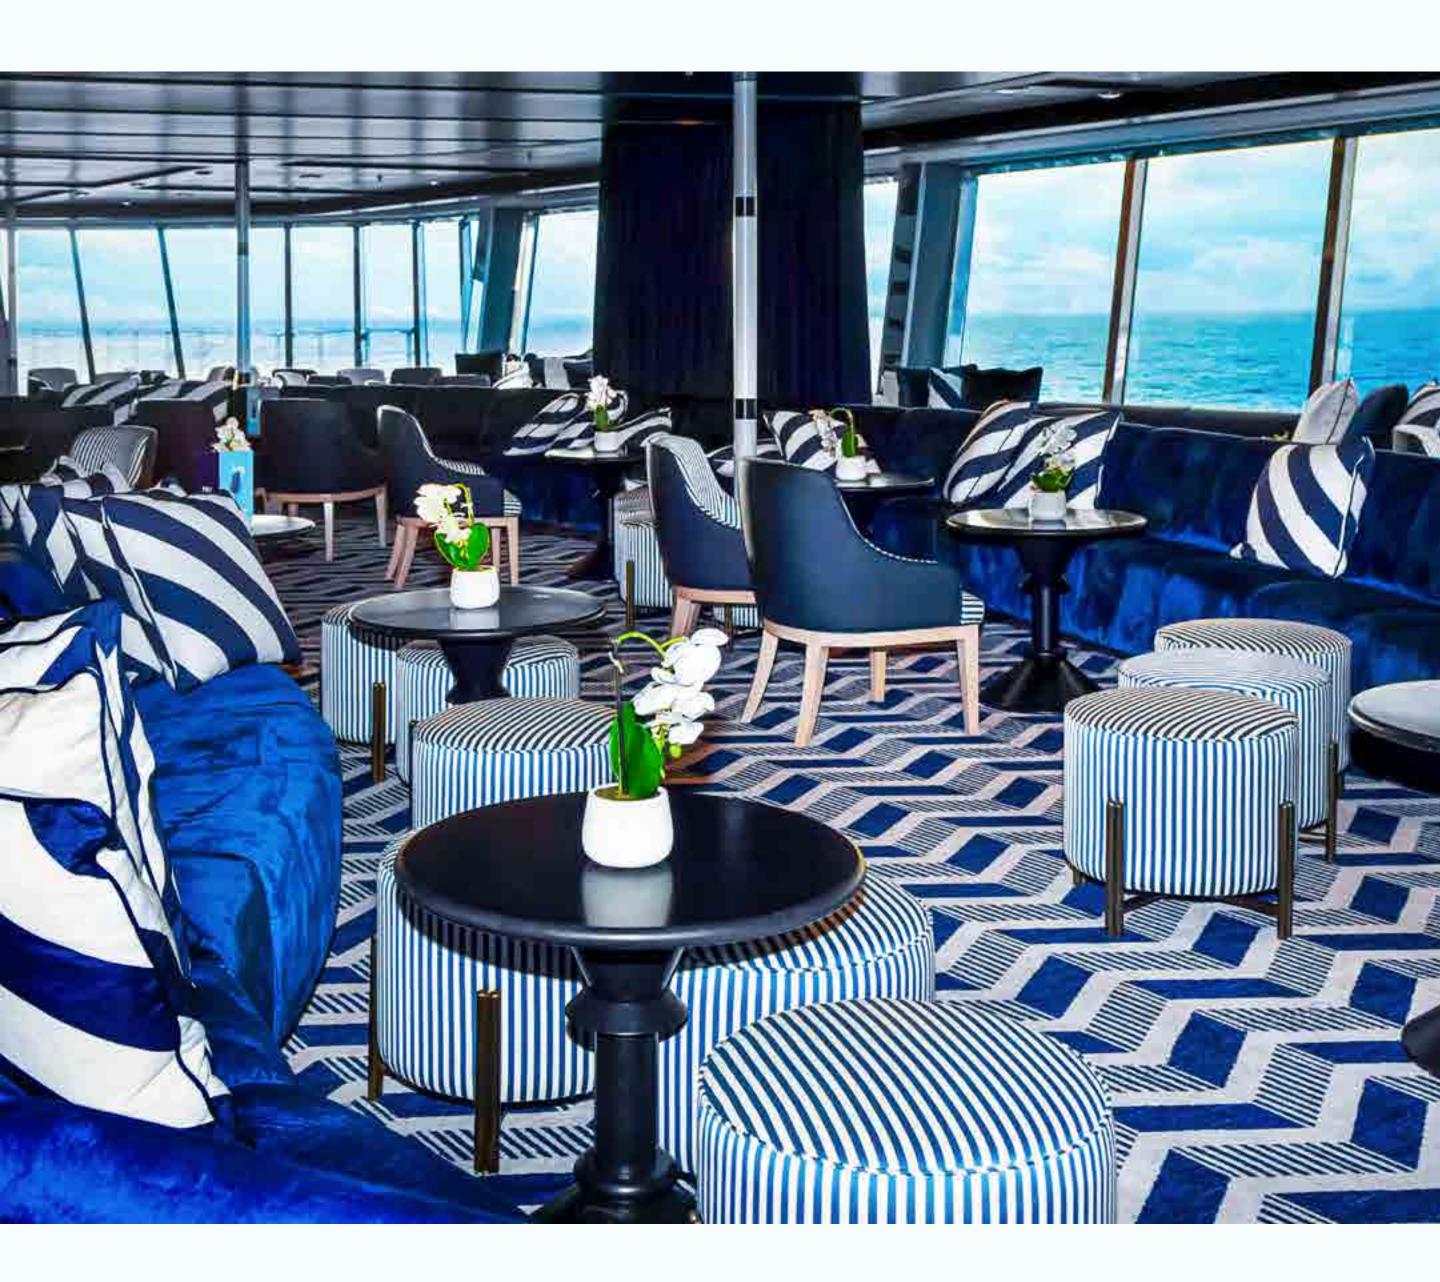

TO MAKE YOU FEEL AT HOME

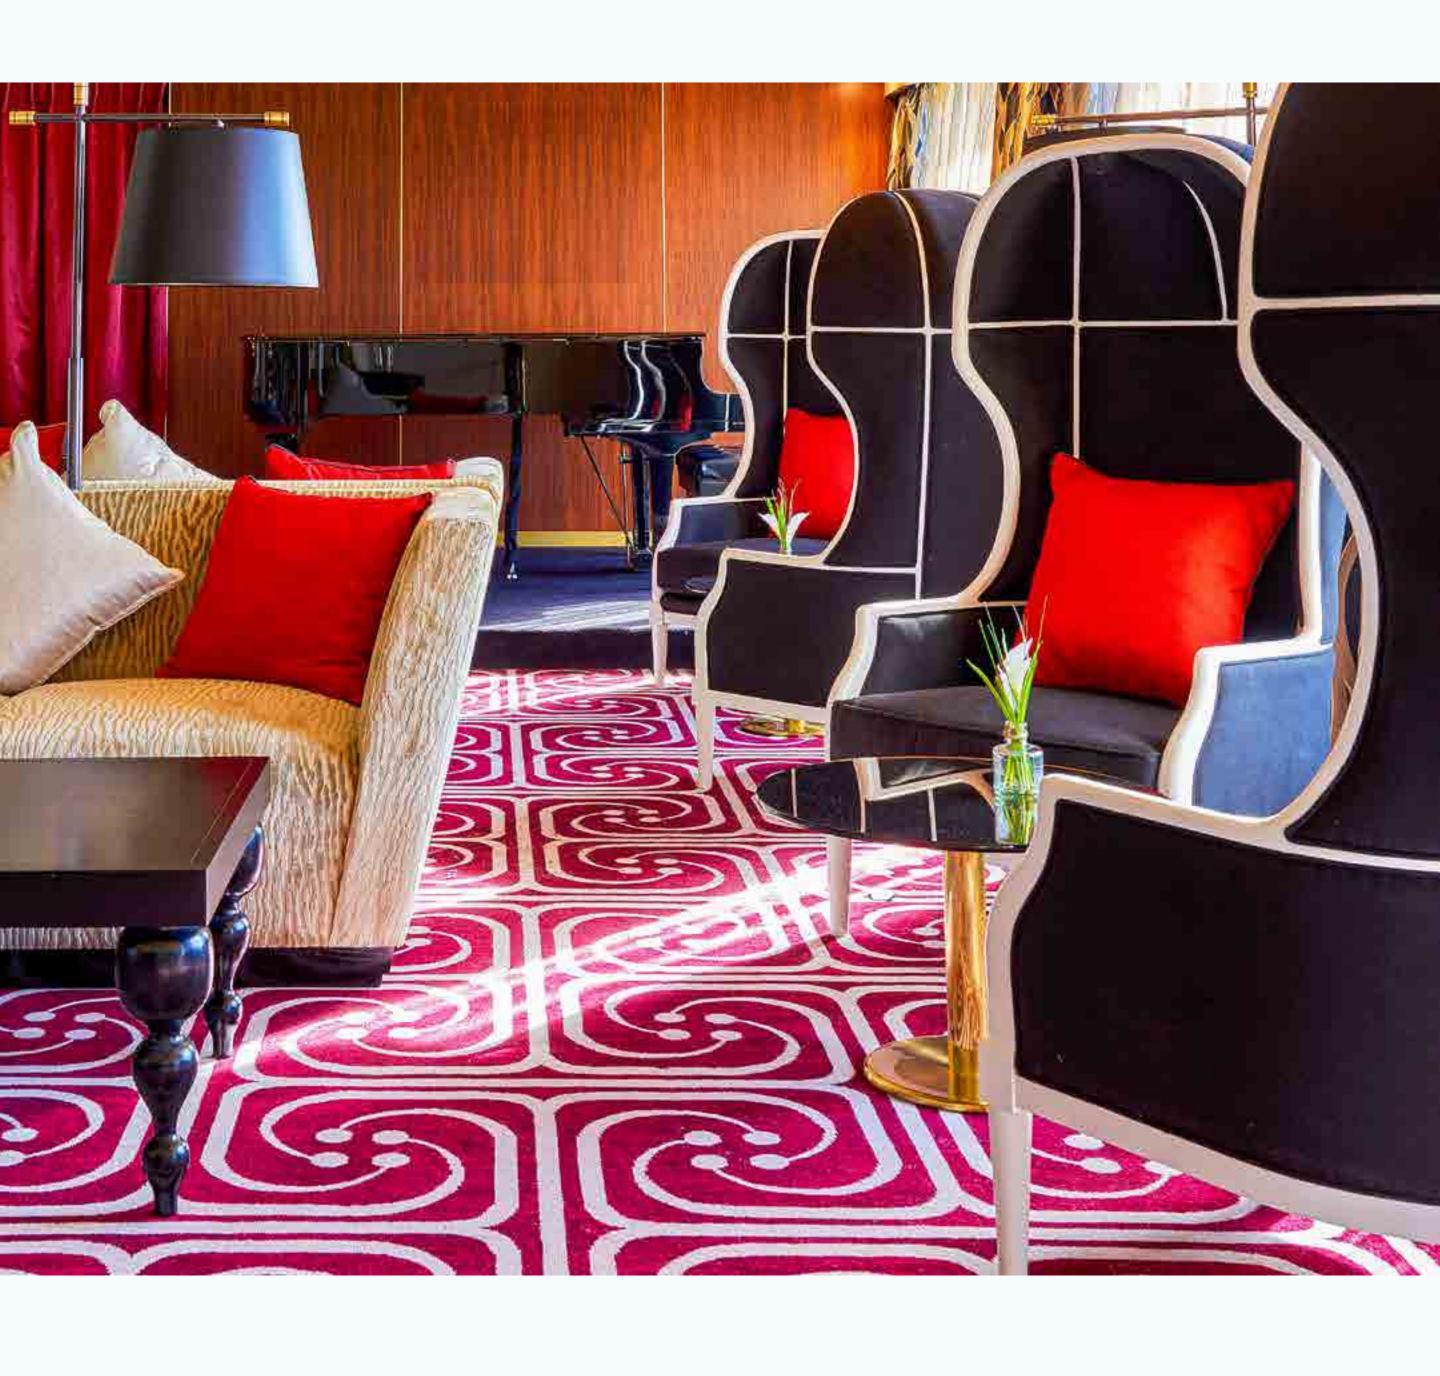

Aboard the Vasco da Gama, the crew-to-guest ratio is one of the highest in the cruising industry, with 550 dedicated crew members serving a maximum of just 1,000 guests. This exceptional ratio ensures a level of personal service and attention that few other cruises can match, creating a comfortable and relaxed atmosphere for all.

With nine spacious guest decks and a ship length of 219 meters, there's plenty of room to unwind, indulge, and explore while enjoying ample privacy. Whether traveling to the North Cape, the Mediterranean, or even around the world, guests experience an intimate, cruise environment that fosters connection.

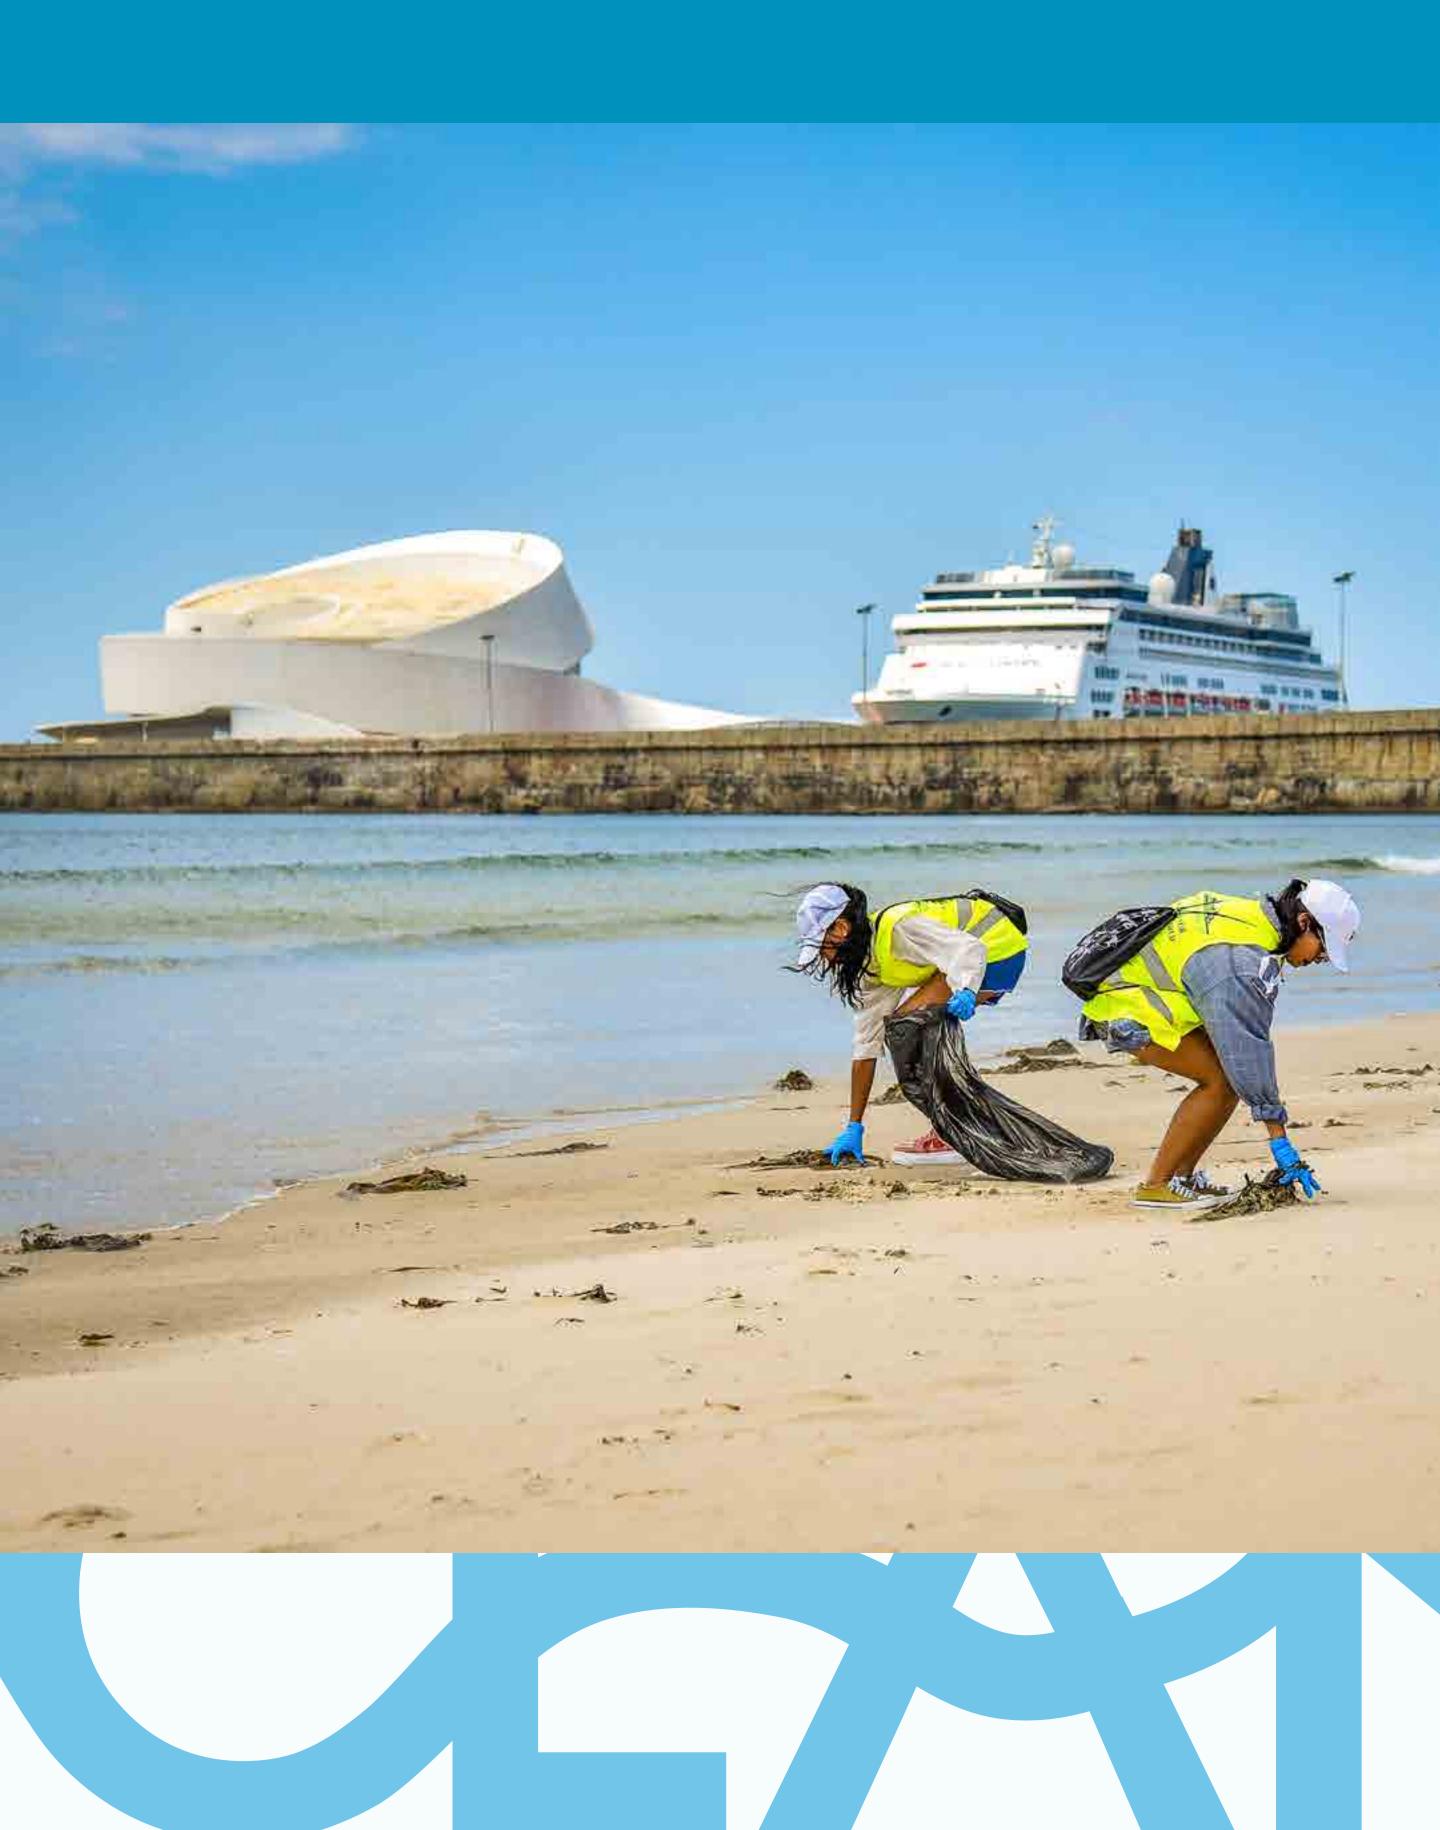

With a crew dedicated solely to guest comfort and satisfaction, every need is anticipated, from fine dining to personalized assistance. This high ratio of attentive crew to guests, paired with the vessel's abundant free space and excellent amenities, guarantees a cruise experience that feels both luxurious and uniquely personal.

Sustainability

OUR COMMITMENT TO A GREENER FUTURE

At Mystic Ocean, we believe that the world's natural wonders should be experienced without compromising their future. With a deep commitment to environmental stewardship, we strive to minimize our footprint while delivering unforgettable cruising experiences.

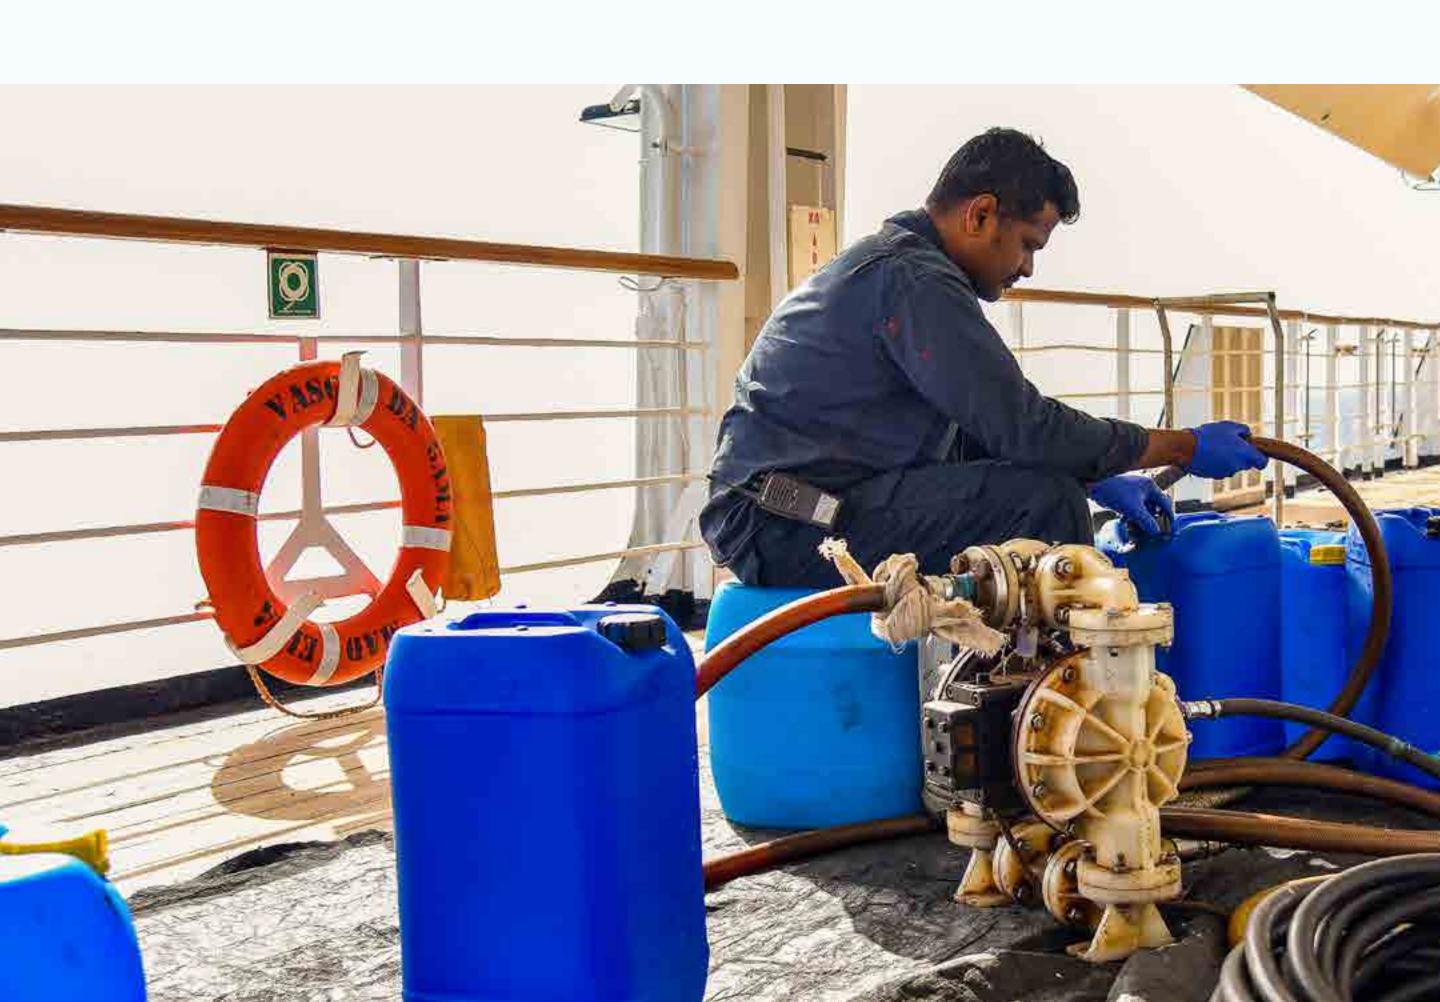

Aboard the Vasco da Gama, every journey is designed with sustainability at its core, incorporating cutting-edge technology and environmentally friendly practices.

One of the standout features on the Vasco da Gama is her advanced German-engineered wastewater treatment system. Using ultrafiltration membrane technology, this system removes all suspended solids and ensures wastewater quality that meets the most stringent international and local standards. Without the need for chemical additives, this process delivers treated water of bathing water quality, safeguarding the ecosystems we travel through.

As part of our comprehensive renovation, we transitioned from using crude oil to marine gas oil and conducted a complete overhaul of the engines. The Vasco da Gama now operates on low-sulphur MGO (marine gas oil), which generates considerably less dust and soot compared to the crude oil utilized by most ocean-going vessels. Research indicates that MGO emits 70 to 85 percent less sulfur oxide than crude oil. This eco-conscious choice helps minimize the vessel's emissions footprint and aligns with Mystic Ocean's dedication to sustainable cruising.

Additionally,

the Vasco da Gama is equipped with an advanced SCR (Selective Catalytic Reduction) catalytic converter, exceeding current environmental protection requirements for sensitive areas. This SCR technology is designed to meet even stricter standards, allowing the vessel to navigate Norwegian fjords and other protected regions with minimal environmental impact.

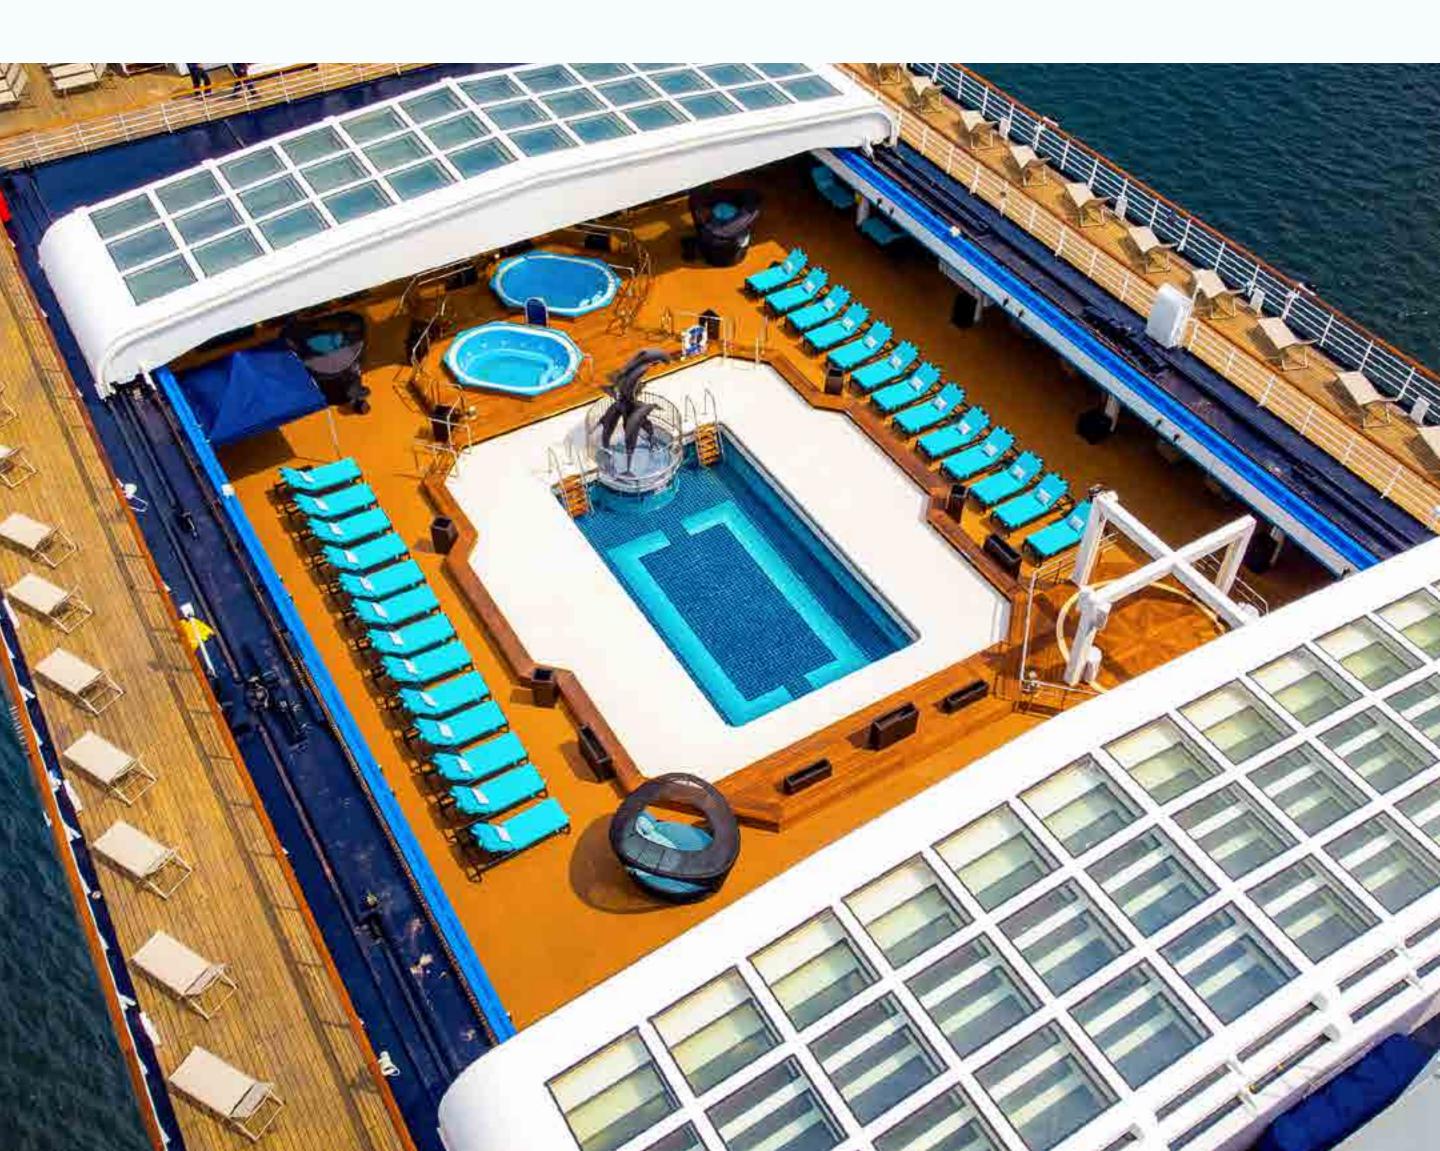

Mystic Ocean's philosophy is simple: to provide intimate, close-to-nature experiences while leaving destinations as pristine as they were found. With each voyage, we're committed to paving the way for a more sustainable and eco-friendly cruise industry—because the beauty of our planet is something we're dedicated to preserving.

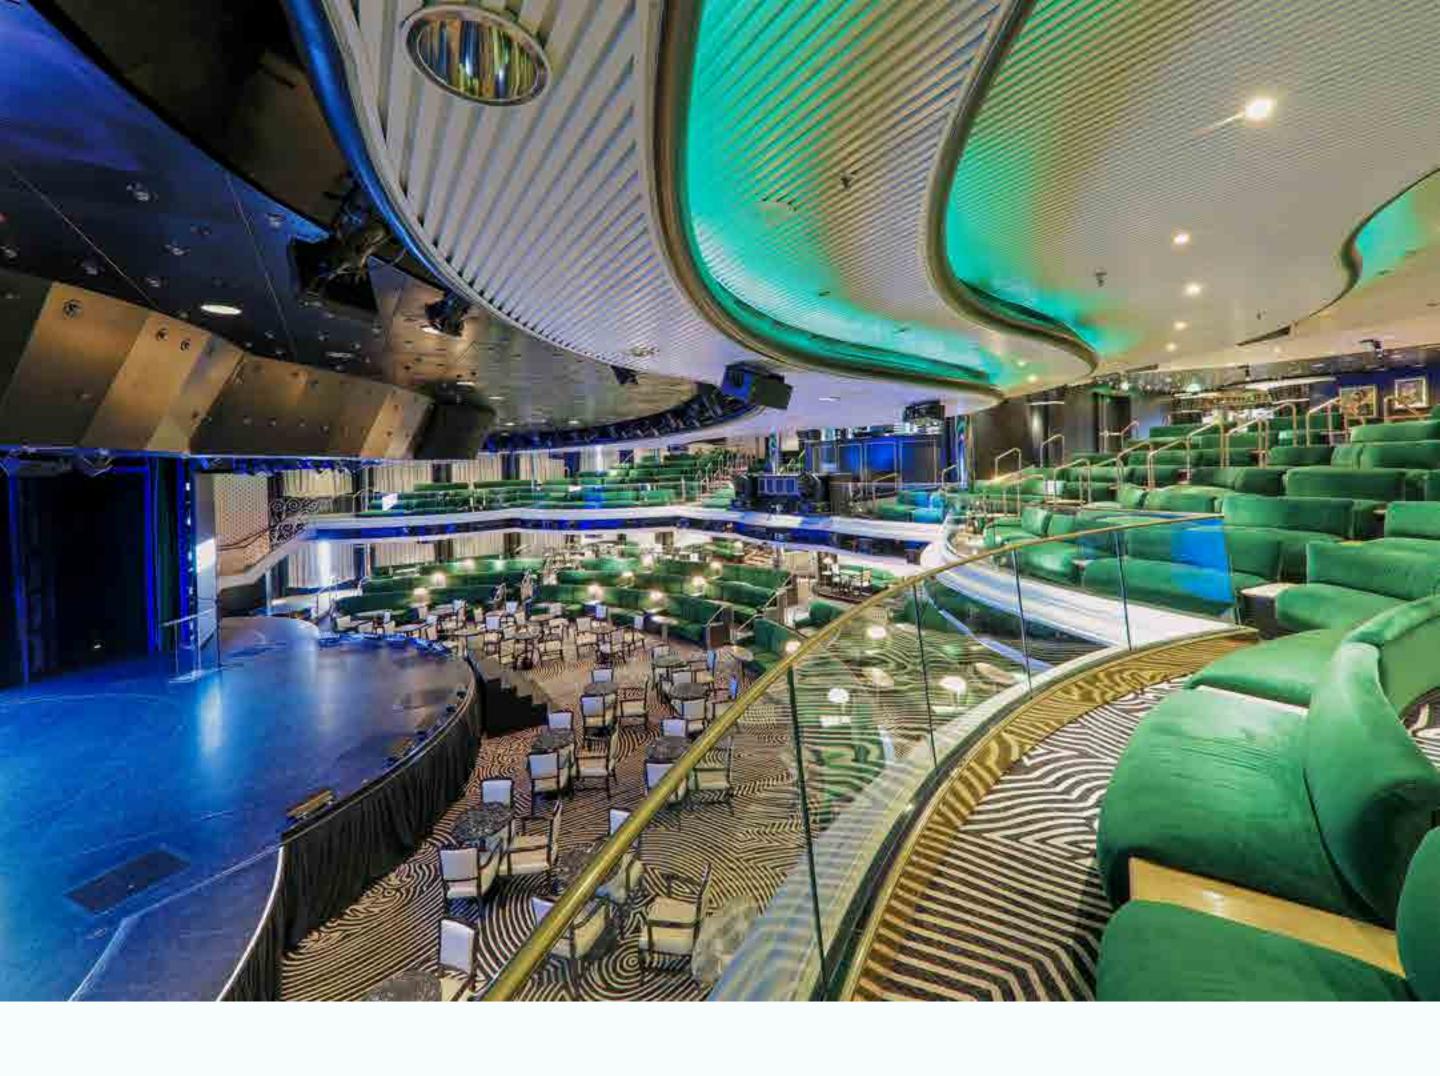

Vasco da Gama is a vessel where tradition and luxury meet to create a uniquely inviting cruise experience, combining the elegance of classic design with the comforts of modern amenities. At 219 meters in length, this spacious vessel provides ample room for guests to relax, explore, and enjoy the journey across her nine guest decks.

On board, guests can indulge in five unique restaurants, each offering diverse culinary experiences, and unwind in any of the beautifully designed bars and lounges. For those seeking relaxation, the vessel's luxurious wellness area features a dry sauna, Turkish bath, and an expansive fitness center. Sports areas on the outside decks and two swimming pools — including one with a retractable glass roof — allow guests to enjoy physical activities and leisure time at any time of year.

The interior spaces are carefully crafted for both style and comfort, from the warm teak-wood decks to generously sized cabins and suites. The vessel also boasts the "Hollywood" show theatre, a two-deck venue that delivers top-tier entertainment each evening.

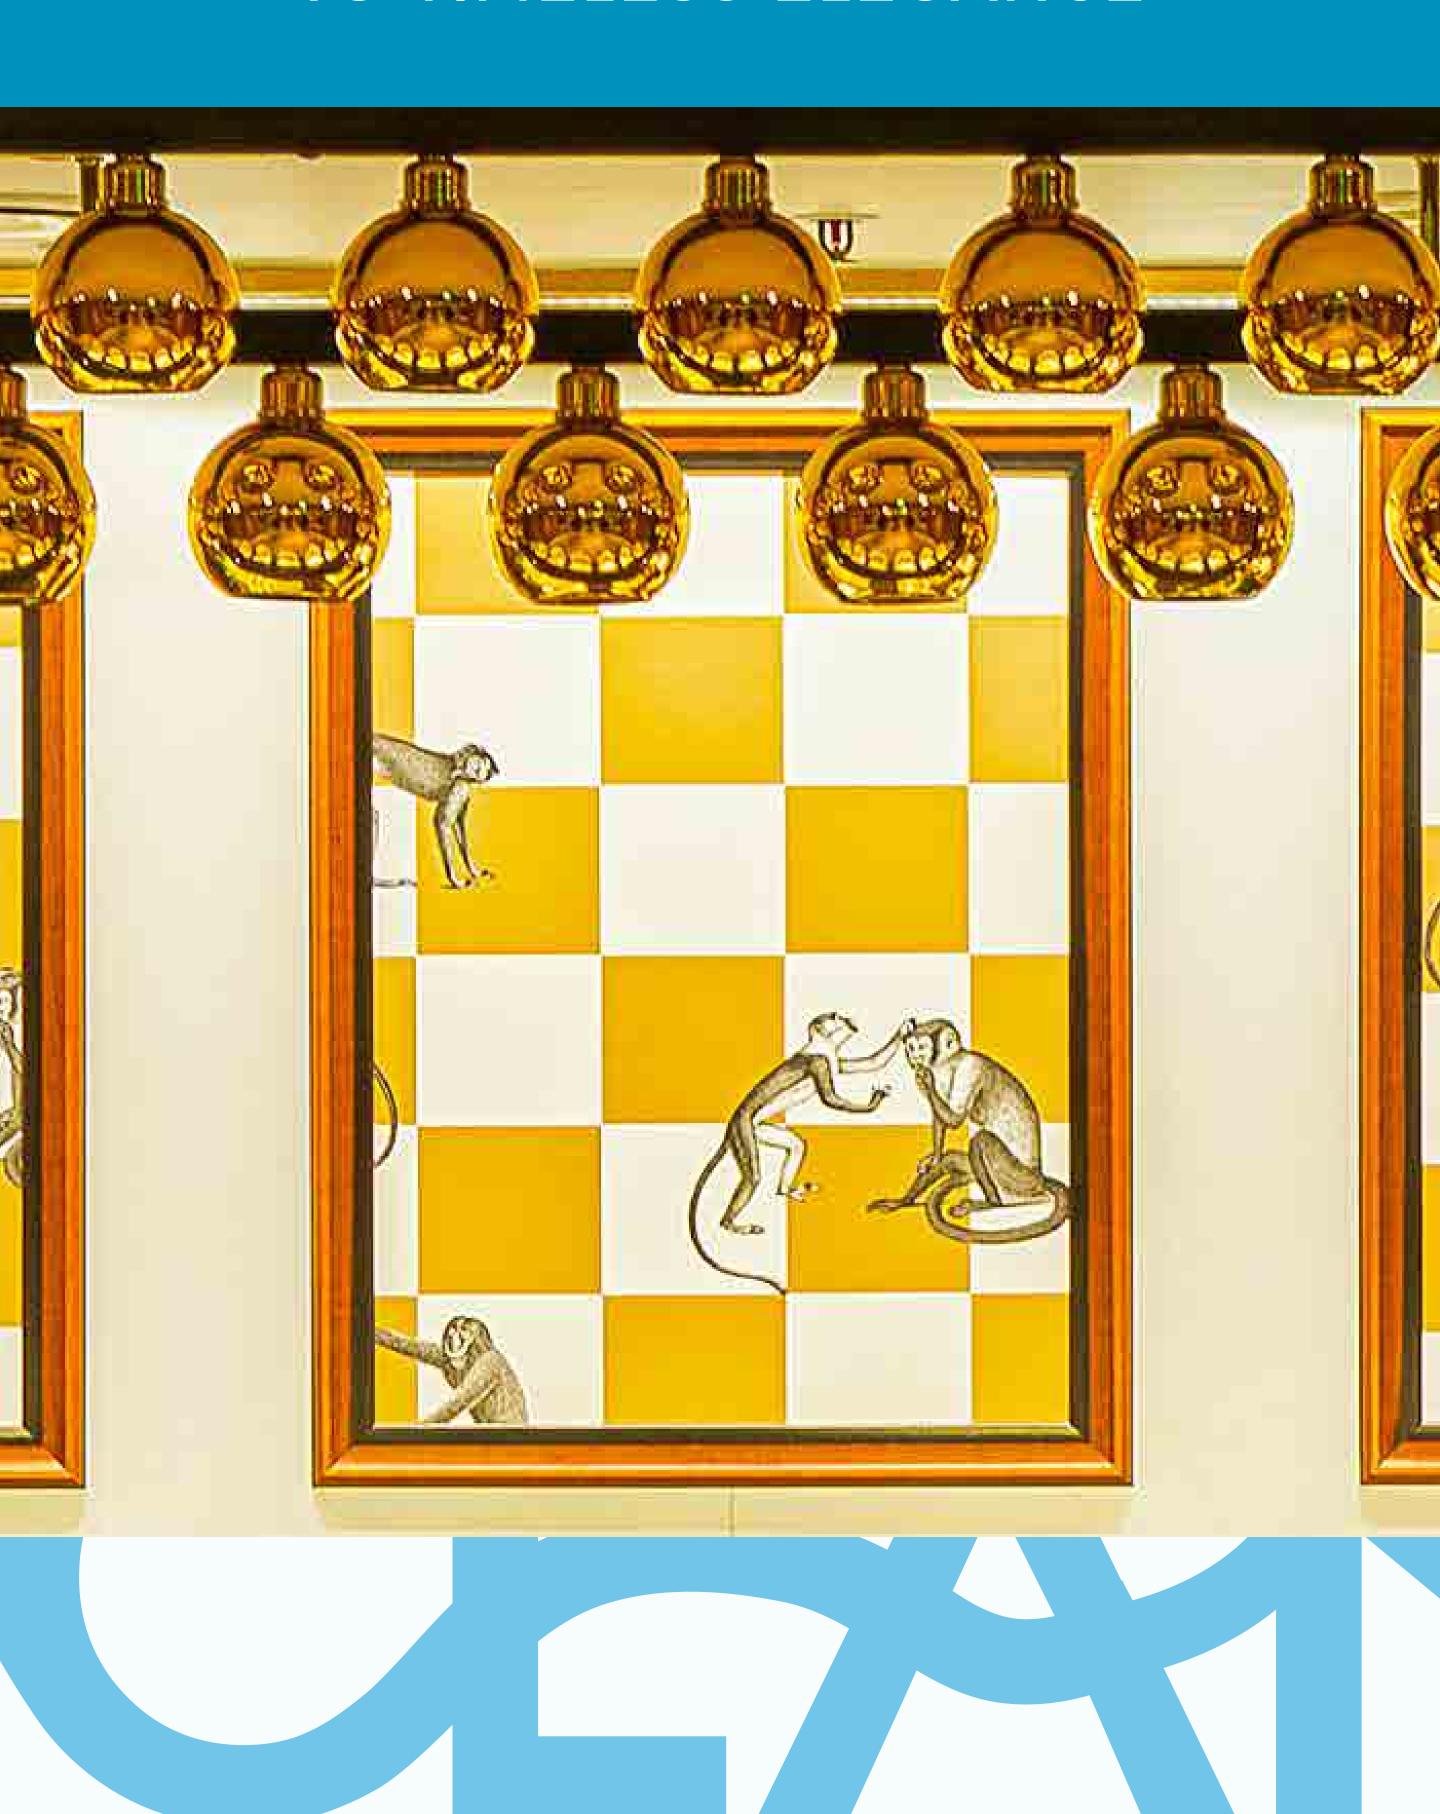

With every detail thoughtfully designed to enhance the guest experience, the Vasco da Gama feels like a home away from home-one that travels to breathtaking destinations with unparalleled elegance and charm.

Vasco da Gama

A PERFECT BLEND
OF TRADITION,
LUXURY, AND
COMFORT

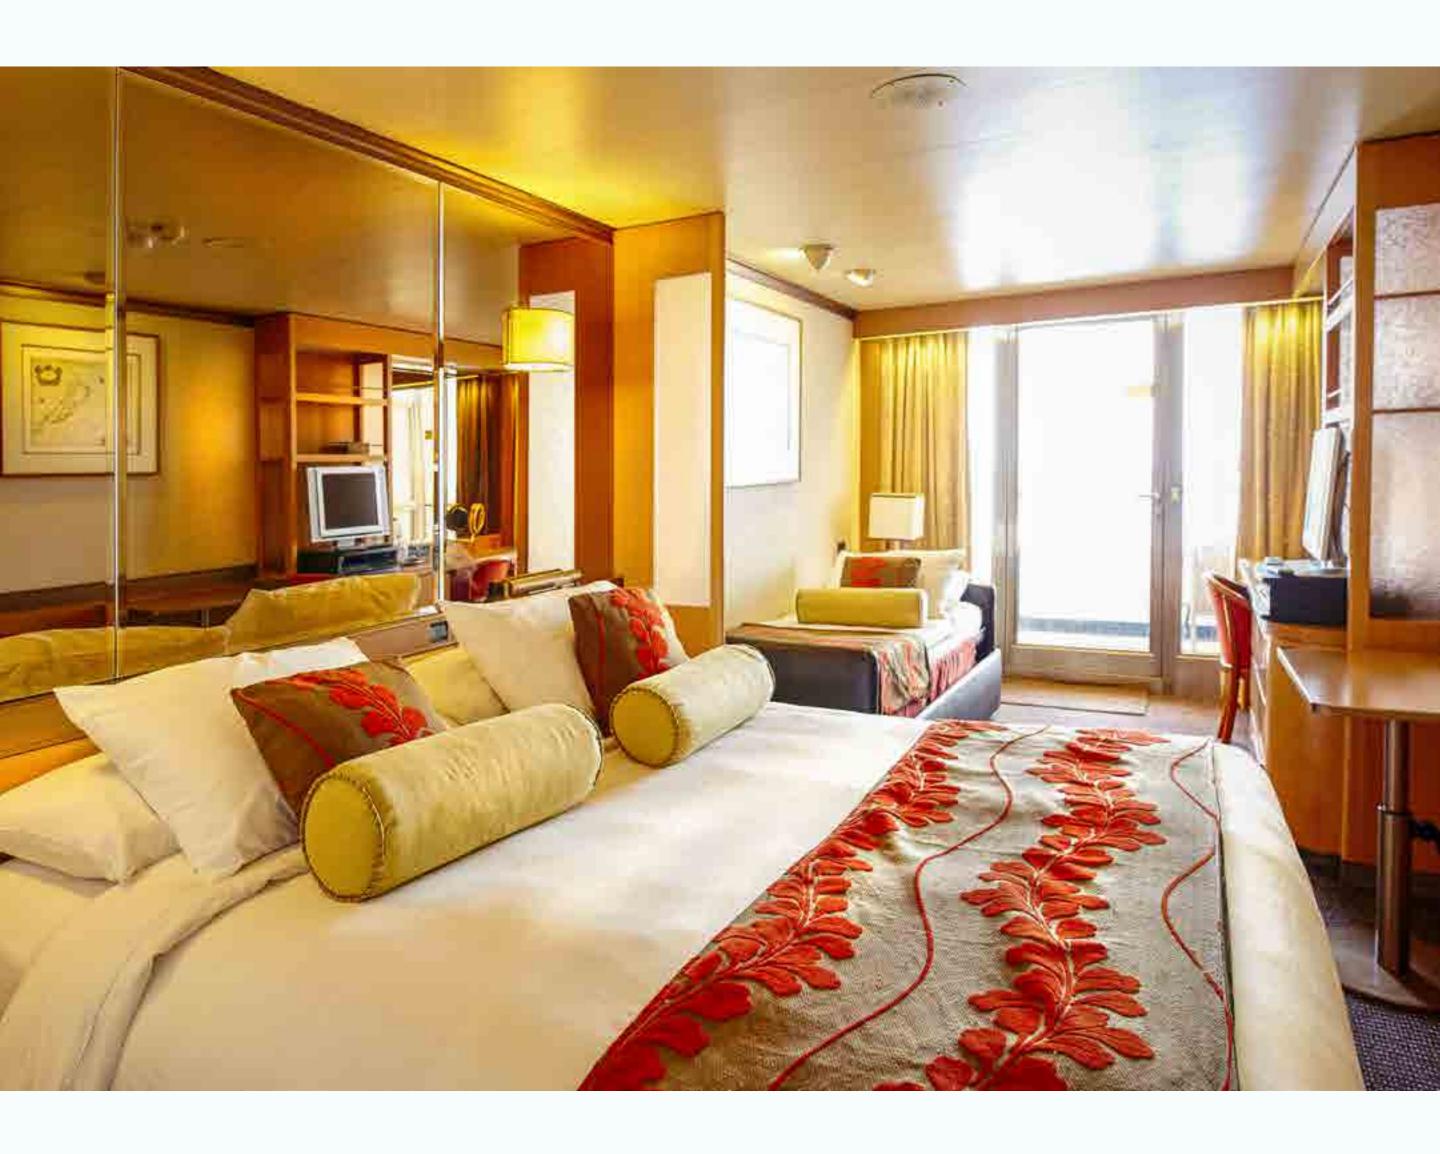

Reinventing Vasco da Gama luxury

A NEW APPROACH TO TIMELESS ELEGANCE

We have reinvented the concept of luxurious design that was already characteristic of Vasco da Gama, keeping in mind the comfort and the most demanding tastes of our guests, blending timeless elegance with fresh, modern improvements. Fine fabrics, vibrant new colours and a refined selection of materials now embellish the vessel, creating a sense of luxury throughout.

Inside the cabins, guests will discover new carpets, plush sofas, and inviting armchairs. The addition of colorful curtains, bedding, and cushions complements the modernized cabin design, lending warmth and style to each room. The latest flat-screen TVs have been installed for a more enjoyable in-room experience, while the bathrooms feature new glass protection for added elegance and practicality.

The vessel's 29 suites have undergone a complete makeover, with special attention given to the balconies and verandas. These outdoor spaces now reflect a refined glamour, with fresh furnishings and stylish touches, making them perfect for moments of quiet relaxation with stunning views. Each element of the Vasco da Gama's remodeling brings a breath of fresh air to this classic vessel, designed to meet and exceed the expectations of today's luxury cruise guests.
